**LNG Frequently Asked Questions<sup>1</sup>**

**What is LNG?**  
Liquefied Natural Gas (LNG) is natural gas cooled to a liquid state. When natural gas is cooled to a temperature of approximately -256°F at atmospheric pressure, it condenses to a liquid. To liquefy natural gas, impurities that would freeze are removed, such as water, carbon dioxide, sulfur, and some of the heavier hydrocarbons. The volume of this liquid takes up about 1/600th of the volume of natural gas at a stove burner tip. LNG weighs about 45 percent as much as water and is odorless, colorless, non-corrosive, and non-toxic.

**What is the history of LNG?**  
The liquefaction of natural gas dates back to the early 1900s. The first practical compressor refrigeration machine was built in Munich in 1873. The

**Subject:** [Winding up Rotary Monash Community Raffle - 20 years & over \\$1.6 million to Community](#)

Dear Tony and the team,

I want to thank you all for your amazing work over so many years, largely unrecognized. Perhaps D9810 is unaware of this tremendous success and effort, so I am forwarding this email to DG David Tolstrup and intend also to ensure our Club is made aware of your contribution.

As a Real Estate Agent in this area, I know very well how the demographics have changed in the City of Monash and the commitment to the Community and to fundraising is no longer so important. A great pity.

Below is an excerpt from the 'winding up minutes' of 9<sup>th</sup> November 2015:

**Item 1.10.4 – The Chair thanked the Committee for its support and efforts over the twenty year life of the raffle in which he had been chair for 16 raffles. In its life the raffle saw \$1,636,750.00 distributed to Community Organisations”**

Warm regards and thank you all

Hi All,

Please note the following from Mark Anderson:

Great news

The Rotary Foundation is ranked in the Top 10 charities in the world. The scores — ranked on a scale of 1 to 100 — are based on financial health, accountability and the transparency of reporting. TRF is ranked at Number 5 in the world.

Please click on the link below. Please use this information when seeking contributions and take great pride in what it says.

**Children’s Christmas Party**

Well, it is over for another year. Numbers were down this year, but the success of the party is not so much judged by the numbers, but by the looks on the faces of the children as they enjoy the food, and the range of activities, including the jumping castle, and then receive their present from Santa. Despite the numbers being lower than expected, my overwhelming impression was that the party invitations were well targeted. The children that attended will probably not have the opportunity to enjoy a similar party during this festive season.

This event requires a lot of planning, commencing in early September, and I am pleased that so many members take the time to help with the various tasks. I therefore won’t single out any members for special thanks, as most helped in some way, as you always do. My sincere thanks to all of you.

I will however, thank Rebecca and Danielle Darbyshire, and their school friend (I am sorry for not recalling her name) for their help with the face painting, and the Monash Rotaract members Bianca Lobo, Jake Leopold and Morgan Roberts. Thanks also to Rhonda’s daughter Amanda and her friend Petar. If I missed anybody, please accept my thanks. I was helping unload Santa’s sleigh in the back room and might not have thanked you personally. We were fortunate to have four major sponsors this year, which kept our costs down and ensured the success of the day - *Planning for Life Australia Pty Ltd, Hallmark Cards Australia, Superpop Pty Ltd, and Spotlight Retail Group.*

I recently advised Community Chairman Glen, and President Sean, that this was my last time as organiser of this event. It is time for a fresh approach, and I would like to focus my time on other Rotary projects. Graham Bristow managed this event for over 14 years before I took over seven years ago, and he has been an enormous support behind the scenes for me personally during my time with this event. I therefore must conclude this report with my personal acknowledgement of his outstanding role over the last 20 plus years.
